

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

And no book shall be put in use until so recorded.

ART. 5. He shall keep an Alphabetical Catalogue of all volumes and pamphlets belonging to the Library, in which shall be noted the title and author of every work, and the number of volumes, with its number on the Accession Catalogue, and its place in the Library.

He shall also cause all volumes, pamphlets, and manuscripts belonging to the Library or Reading-room to be stamped with the words, MEMORIAL HALL LIBRARY, ANDOVER.

ART. 8. He shall have every volume, before it is delivered from the Library, neatly covered with suitable paper; the number of the shelf on which it is kept, and the book-number, written on the back; and a printed copy of such rules as the Trustees may direct attached to the cover, together with a statement of the time for which the book is allowed to be kept out. It shall also be his duty to cover and label anew all books whose covers or labels may have become worn or defaced.

ART. 11. He shall furnish to any person entitled to the privileges of the Library, such books as he may desire to use in the Reading-room, during Library hours, providing him first with a printed slip on which to make written application for the same; this application to be preserved by the Librarian, and cancelled on the return of the book.

ART. 12. The Librarian may withhold any book, particularly in the case of minors, when there is good and sufficient reason.

ART. 13. He shall retain for two days after its return any book which may have been inquired for, provided a written request for its retention has been presented by the person desiring the book.
